

initiative on the State ballot to close the gun show loophole. Colorado voters can now do what Congress has failed to do: close a deadly loophole that allows criminals, juveniles, and other restricted persons to buy guns at gun shows with no questions asked.

With our Nation losing 10 children to gun-fire every day, Congress should heed the voices of millions of Americans concerned about gun violence—not those of the gun lobby—and follow the lead of States like Colorado. While Colorado's progress is encouraging, we should not have to rely on a patchwork of State laws when it comes to protecting our children's safety. Only Congress can pass legislation that protects children all across America. National legislation to close the gun show loophole and keep guns out of the wrong hands should be passed without further delay.

Statement on Signing the Cross-Border Cooperation and Environmental Safety in Northern Europe Act of 2000

August 3, 2000

Yesterday, I signed H.R. 4249, the "Cross-Border Cooperation and Environmental Safety in Northern Europe Act of 2000." This law endorses the administration's Northern Europe Initiative (NEI) and highlights the need for continued international efforts to address the environmental dangers posed by nuclear waste in northwest Russia. I want to express my appreciation to Representative Sam Gejdenson for introducing and ensuring the passage of this important legislation.

We launched the Northern Europe Initiative because we recognized, as the Congress does in this law, the importance of strengthening regional cooperation among the Baltic States, Russia, and all countries bordering the Baltic Sea. Only in this way can we create the stability and prosperity that will lead to full integration of northern Europe, including northwest Russia, into the broader European and transatlantic mainstream. Our European friends, especially the Nordic countries and the European Union, are full partners in this effort.

The law also highlights the environmental dangers posed by military nuclear waste in northwest Russia. These dangers have been brought to light by the work of courageous independent environmentalists and non-governmental organizations in Russia and elsewhere. Aleksandr Nikitin, a retired Russian Navy colonel, has made important contributions to the international understanding and study of environmental problems in this region. Both environmentalists and non-government organizations face increased challenges today.

We have been deeply involved in helping Russia and its neighbors confront the serious environmental risks that face the Barents Sea, the Baltic Sea, and the people who live around them. We look forward to increased cooperation from Russia as we create a legal framework for our common efforts.

NOTE: H.R. 4249, approved August 2, was assigned Public Law No. 106-255.

Statement on the Death of Sister M. Isolina Ferre

August 3, 2000

Hillary and I were saddened to learn of the death of Sister Isolina Ferre. Her passionate fight, for more than 60 years, against poverty, violence, and despair earned her many awards and countless tributes from all around the world. Armed only with her faith, she taught gangs in New York City to solve their differences without violence. In Puerto Rico, her community service centers, the Centros Isolina Ferre, transformed ravaged neighborhoods by operating clinics and helping residents to empower themselves.

Almost a year ago today, I was honored to welcome Sister Isolina to the White House and present her with the Medal of Freedom. At that ceremony, I said, "Sister Isolina taught people to see the best in themselves and in their communities and made sure they had the tools to make the most of the gifts God has given them."

Her lifetime of selfless commitment to others will remain her greatest legacy. Our thoughts and prayers are with her family and many friends.
